

# Production Scientist

Beverly, MA | Onsite

Send your resume to [careers@seqwell.com](mailto:careers@seqwell.com)

## Join the seqWell journey!

Our mission at seqWell is simple. Responsive to the needs of our customers, we develop scalable genomics products that simplify sequencing workflows. Our workflow enables scalable multiplexing with fewer steps and cost-consuming normalization to achieve greater efficiency, cost savings, and minimize time to results. We are a fast-moving, innovative company focused on customers while providing a fulfilling work environment for our team members.

## What we are looking for:

The Production Scientist will help support the manufacturing of seqWell's growing product lines. As a member of the team the position will work with the technical production team to ensure that materials are manufactured to product specifications before being transferred to seqWell's contract manufacturer for final assembly.

## How you will contribute:

The Production Scientist will have a broad range of responsibilities, including but not limited to the following:

- Supports production of next generation sequencing reagent products
- Works with the team to complete production materials for transfer to contract manufacturer
- Prepares and sequences next generation sequencing libraries
- Completes library QC including tapestation, bioanalyzer, and sequencing run review
- Assembles reagent kits, as required
- Follows all standard operating procedures and bills of material
- If necessary, the individual troubleshoots equipment malfunctions and performs instrument calibrations

## What you will bring:

- General laboratory experience
- Use of bioanalyzer, tape station, liquid handling robots preferred
- A theoretical understanding of and experience with next generation DNA sequencing
- Strong technical skills including proficiency with Excel
- Able to work in a team environment
- Strong verbal and written communications skills, the ability to be flexible, and work with other departments, including R&D
- Bachelor's degree in a related field required
- A minimum of 1-3 years' experience in a laboratory, preferably with DNA sequencing
- Experience with Illumina sequencing platforms preferred

66 Cherry Hill Dr., Beverly, MA 01915 | [seqwell.com](http://seqwell.com)
